

L'ABEILLE, LE ROUGE-GORGE ET LE CERISIER

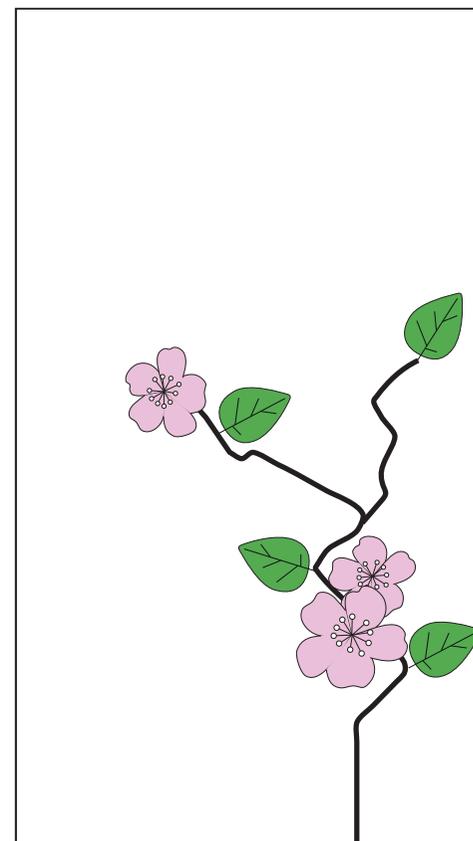

1

L'ABEILLE aide la FLEUR du cerisier à se transformer en FRUIT.

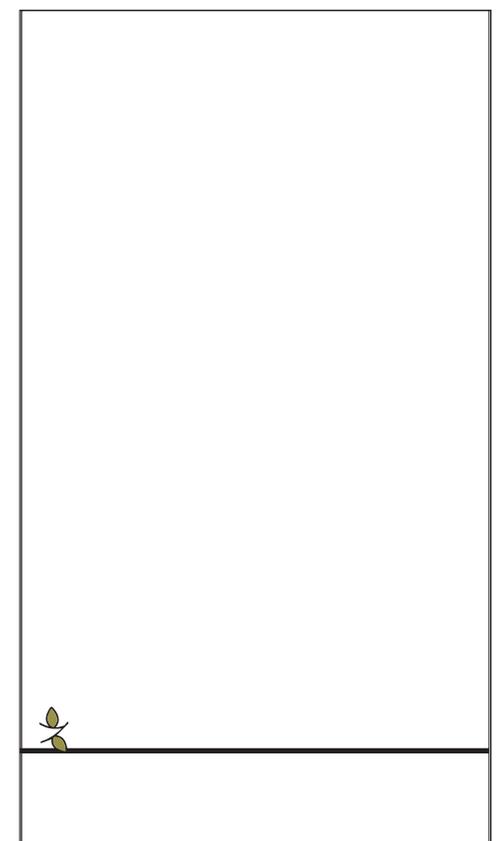

2

3

GEORGES LE ROUGE-GORGE mange le FRUIT et son noyau.

4

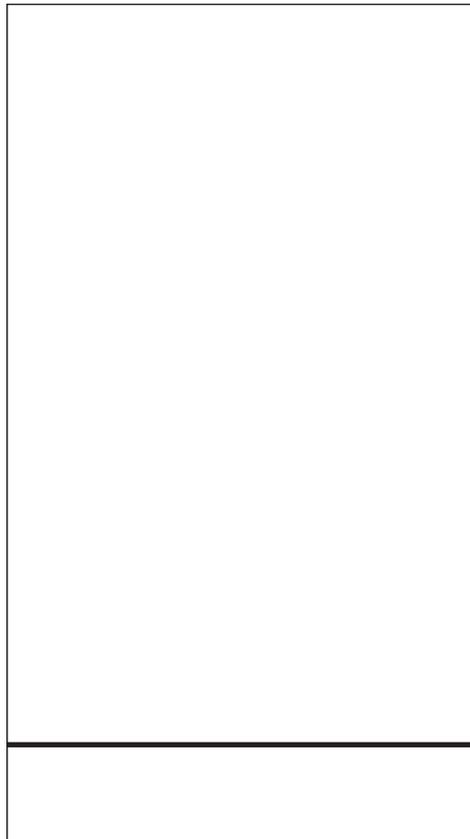

L'ABEILLE, LE ROUGE-GORGE ET LE CERISIER

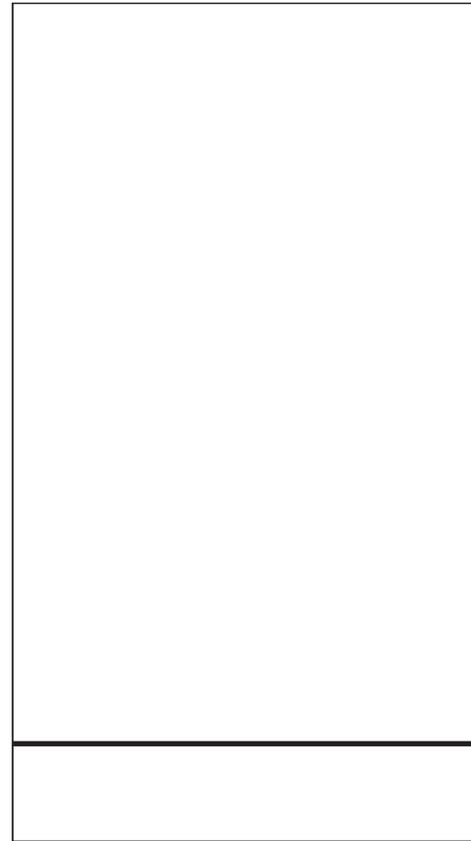

5

GEORGES le rouge-gorge fait une crotte qui contient le noyau de la cerise.

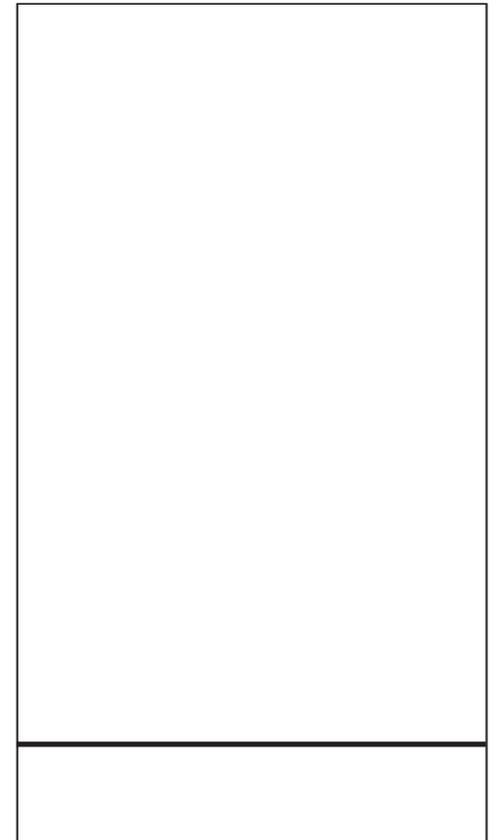

6

7

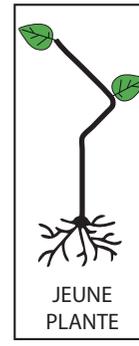

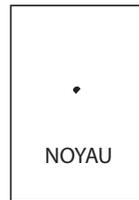

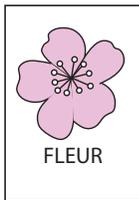

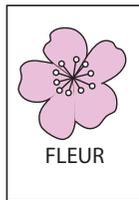

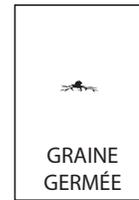

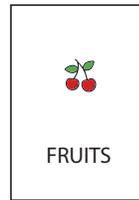

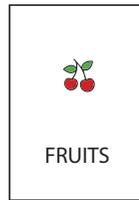

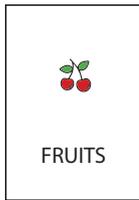

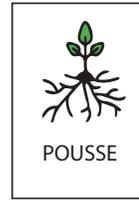

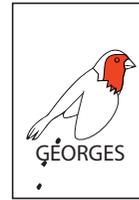

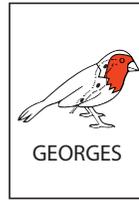

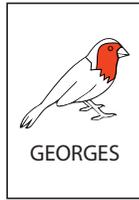

Un nouveau CERISIER peut pousser à partir de la graine qui se trouve dans le noyau. GEORGES le rouge-gorge a aidé un cerisier à pousser plus loin
